Modi Public School

A Senior Secondary English Medium Co-educational Institution

OUR COMMITMENT

To evolve a curriculum for physical, mental, emotional, intellectual and spiritual growth aimed at the multi-faceted development of the younger generation. To provide an environment for students nurturing the qualities of leadership, adventure, sportsmanship, team spirit, mutual co-operation, self-esteem and other social attributes as a foundation for the future. To create balanced human beings with humane qualities and the passion to be the change that they want to see in the world.

OUR FACULTY

A highly qualified and committed team of teachers strives to maintain the highest traditions of excellence. In-service training programmes and workshops, held on campus, keep them abreast with the latest trends in curriculum and methodology. They are encouraged to use their discretion to create an atmosphere best suited to the subject and task at hand.

MODI MENTOR

We learn new things each day and that keeps us going. It's like teaching a new subject for the first time. You're nervous and you may feel that you're not as prepared as you'd like to be. However, as the months roll by, you discover things that you didn't know about yourself and about the students you teach. That's motivating! Also, each child has a story that needs to be heard. We must take time to hear those stories. We teach children, not subject - that is important to remember.

OUR DEDICATED STAFF

About Founder Chairman

Late Dr. R.N. Modi Founder Chairman

The Modi Public School has carved blaze a trail image in the field of Indian education, was founded at Kota in 1990 by the great visionary industrialist and renowned philanthropist Dr. R.N. Modi. The school strives to provide an environment and infrastructure that can compare internationally and which will make students globally competitive. Modi Group has made a significant contribution with establishment of reputed institutions like MIT, MIMT, SRD Modi College for women, Modi Public School, Modi Champs, Modi Law College and Modi Private ITI.

Dr. Modi was the President of Bhartiya Governance Samvardhan Lok Nyas, Rawatbhata Road. He was also the President of Akhil Bhartiya Vaishya Mahasabha of Kota Division. He had been associated with many social and business groups like Bhartiya Vidya Bhawan, Bharat Vikas Parishad, Bhartiya Govansh Samvardhan Lok Nyas, Manav Mandir Samiti (for disabled person), Federation of trade and Industry, Laghu Udyog Sangh, Badminton and Cricket Association Kota. Modi, a philosophically-led model of education, is built upon Four Building Blocks of Education as:

UNIVERSAL VALUES : the spirit 'to be'

GLOBAL UNDERSTANDING: the heart 'to love'

EXCELLENCE IN ALL THINGS: the mind 'to discover'

SERVICE TO HUMANITY: the skills to 'serve and make a difference'

President Message

Mrs. Bimla Modi

Mr. Sushil Modi

Vice Chairman

Mr. Raghav Modi

Executive Director

The academic session has continued with an excellence driven, world class and holistic education provided by our foundation. We have thoroughly worked upon this respect for years together with a progressive attitude towards the future, academic rigour with a caring heart, and an appreciation of the individual with the warmth of a cohesive school community.

Education is changing rapidly. New initiatives in terms of teaching methodology and best practices from the world's renowned institutes need to be integrated on a regular basis. Modi Public School encourages students to take intellectual risks in an atmosphere that is both challenging and supportive. With the careful guidance of our experienced teachers, students discover their individual passion while learning to value multiple perspectives, to work with people who have diverse point of views and to participate in the global community. Students of Modi Public School are problem solvers. They learn to evaluate what they hear, read or see, and in doing so they take control of the foundation of their learning and become self-confident, competent and ready to lead. Balancing their academic education with a dynamic spiritual life, community service, a wide range of opportunities in the visual and performing arts, an extensive athletics program and an ever-expanding selection of student-run clubs and committees, with certain fields our students also develop a strong sense of personal integrity. They take their responsibility seriously to engage with the world in productive and principled ways.

Principal's Message

Anil V Koshy

Our commitment at Modi Public School is to provide unmatched qualitative education par excellence to develop the best that is latent in children and to encourage the child to explore and revel in the joy of learning. A safe, positive, intellectual learning environment that will empower students to become creative problem solvers, critical thinkers, and inspired learners prepared for college and life in the future. The endeavour is to retain smiles on the faces of the children, channelise the energies of youthfulness while sensing the beautiful connectivity between the heart, character, nation and the world.

As a Principal, I would like to continue setting high expectations for our students in regards to academic performance within the classroom, participation in co-curricular activities as well as responsible citizenship at school and in the community. I want each student to make a commitment to have Modi PRIDE (Personal Responsibility In Daily Efforts) by being active participants in their learning and acting responsibly as an individual within our learning community.

We expect high standards in all that we do at our School. We encourage our students to aim high in their studies, to work hard and to be sensitive to the rights and needs of others. We are looking forward to a positive, upbeat school year at Modi Public School. We encourage all students to connect with our school; stand up to mistreatment, vandalism, and to anything you know is not right. Remind yourself you do not have to follow the crowd. Be yourself and even when no one is watching, do the right thing. Parents, please help us by reinforcing school expectations at home. With your help, Modi Public School will continue to be a school community in which every person feels respected, valued, and is encouraged and challenged to achieve at the highest levels.

HOUSE AND THEIR MISSION

Blue House

More than one-half of the world's major rivers are being seriously depleted and polluted, degrading and poisoning the surrounding ecosystems, thus threatening the health and livelihood of people who depend upon them for irrigation, drinking and industrial water save water, save the world.

Green House

The trees and plants show respect for each other by the way they live in harmony. This also applies to the animal kingdom.

Yellow House

The use of solar energy offers huge potential for natural resource and climate protection and for the expansion of renewable energies on the road to a future-oriented energy supply.

Red House

Your blood is replaceable. A life is not! Do something amazing today. Save a life. Give blood! Give the gift that costs nothing but means everything.

MY SCHOOL : A place where teachers are great, lessons are learned, athletes are recognized, kindness fills my heart and smile is on my face and leave me with good morals.

My Village : An ancient African proverb "It takes a village to raise a child." It means that the responsibility lies not only with the parents, but also with the extended family and the community.

My Planet : In spite of the way many people are turning away from God, not for other gods, but for no god; in spite of the mess we are making of this beautiful Planet Earth which God has given us, God still loves the world.

Blue colour represents water, the sign of life. The lotus is our National Flower and denotes our composite culture.

Sanskrit Shloka: "विद्ययाऽमृतमश्नुते".

Means: Knowledge is like the Divine Nectar which makes a person immortal.

SCHOOL EMBLEM

SPORTS

The great virtue of sports teaches everybody to acquire the will to win. If anyone knows how to acquire any will, he will succeed in every aspect of life. The healthy body is essential for success in life. Sports serve an essential purpose in life because they ensure good health and build a fine physique. If one is bodily fit, one feels capable of hard endeavor and life without endeavor is useless. The great advantage of sports is that they combine exercise with thrill, excitement and sensations. To keep students healthy, fit and fine School Sports Club plays a pivotal role in organizing sports events where students learn values like discipline, responsibility, team spirit, sacrifice and accountability.

DISCIPLINE

Discipline is the backbone of character. Without discipline, nothing great can be achieved in life. To enjoy good health and true happiness to family, society, and nation, one must be first disciplined. If a child can control his/her mind he/she can find the way to enlightenment, and all wisdom and virtue will naturally come to him/her. A child is normally found to be disciplined from his/her childhood. It is a habit that one acquires from his/her environments, or by way of training. The child is trained to observe discipline from his/her early years. His/her habits, manners, movements, speeches everything is guided by the term of discipline so that a good personality can be acquired in his/her later life.

Cultural ACTIVITIES

Students who attend schools with a diverse population can develop an understanding of the perspectives of children from different backgrounds and learn to function in a multicultural, multiethnic environment. The importance of cultural activities is to prepare students for real life and strengthen their personal skills. Cultural activities not only help students to identify themselves, but also assist students to develop themselves in a desired field and also improve skills such as organizational, presentation, leadership and interpersonal communication. The School Cultural Society enables students to experience the rich and vibrant Indian culture in all its facets through festivals, food, attire and art forms in a diverse society not only in India, but in the global context too!

Personality DEVELOPMENT

Personality is the sum total ways in which an individual reacts and interacts with others or personality is generally defined as the deeply ingrained and relatively enduring patterns of thought, feeling and behavior. In fact, when one refers to personality, it generally implies to all what is unique about an individual, the characteristics that makes one stand out in a crowd. Personality is the sum total of individual's psychological traits, characteristics, motives, habits, attitudes, beliefs and outlooks. As part of our personality development we keep giving students seminars, activities to sharpen communication skills, listening skills, building confidence, having telephonic conversations, table manners, enhancing observational skills, even a simple activity like story telling can contain a moral thought.

ART ROOM

A sense of art appreciation is the motto behind this room. Drawing and painting is one of the major forms of expression within the visual arts. Drawing is exploratory, with considerable emphasis on observation, problem-solving and composition. It is where the students are trained in drawing, painting, clay modeling, craft work etc. which they can take as a promising career in the future.

DANCE ROOM

Natya Shastra, a treatise on performing arts, from which a codified practices of dance and drama. Our role is to help students harness their dedication to become communicative artists, imbued with the passion and understanding to reach within themselves to affect and move audiences. It is this process that prepares our students for a life which is healthier, happier, stress free and successful.

LIBRARY

Universe where we live, can be transformed to a better place through books. Books feed the mind and the soul. The School Library has a huge collection of books on all subjects besides Encyclopedias, Magazines, Newspapers and Digital Medias. We encourage our students to read more. Reading habits help the students come up with their own creative thoughts and ideas for successful career.

Auditorium

Fashion Studies Lab

CLASSROOM

The sprawling school building, surrounded by lush green lawns and trees is well furnished, airy and spacious state of the art classrooms to ensure effective teaching. To keep up with current trend in the world of school education, the school has installed audio visual aids and use of modern educational software so that complex concepts may be easily understood and applied by students.

LANGUAGE LAB

Language is the words, their pronunciation, & the methods of combining them used and understood by a community. English as we all know and realize has become the language of the world is spoken in most countries. Effective communication skills are of significant importance during the recruitment process of most companies & educational institutes must ensure that students are equipped with necessary skill-sets.

MUSIC ROOM

Plato said "Music gives a soul to the universe, wings to the mind, flight to the imagination and life to everything". Regular classes familiarize students with the musical instrument of their choice. Advanced professional education and grooming in music to highly deserving students so that they can become performers of a very high calibre with a fine sense of music appreciation and aesthetics

They ask Millions of **QUESTIONS**

Get ready... young scientists will drive you crazy with some amazing questions. These endless inquiries may seem silly to you, but remember... they reflect children's attempts to make sense of the world around them. Instead of merely giving an answer, or making up something silly, model the behavior of the scientist. "How do you think we could find out what slugs eat?" Often, if direct observation is not possible, the answer can be researched.

They Have **STRONG OPINIONS**

These opinions, theories or hypotheses often lead to arguments. Instead of correcting a child who thinks that all black ants are poisonous, help him or her use the Internet to research the situation.

They live and **BREATHE SCIENCE**

Future scientists never rest. They come in from the backyard excited about a strange bug they've discovered. Don't forget that the best opportunities for science learning happen in everyday life, far removed from a classroom. We recently watched two elementary-aged children in a heated discussion about where the water droplets come from that appear on the outside of a glass holding a cold beverage. Does the glass leak? If not, where does the water come from? This was the start of an excellent discussion on condensation and humidity, abstract concepts that young minds struggle to understand.

They Collect **STUFF**

You can tell this on laundry day, when you find all of those treasures in your children's pockets. Those bottle caps, stones and mummified raisins are the signs of a scientific mind at work. The first activity of any great scientist, from de Vinci to Darwin, is to collect stuff, organize it and classify it. So, the next time you take your child for a walk on the beach, remember that those sandy shells and pebbles are actually symbols of a young scientist at work. Support this activity by bringing along an egg carton for sorting and help your child classify the objects into similar groups.

Modi Public School is known for imparting the best knowledge in the city of Kota. We nurture the children with great care and love for the holistic development of the child. The children are given to us as a bag of seeds and we nurture them into the fruit bearing plants by giving them the best. Looking into the present scenario Modi Public School believes in giving homely environment to the students and is running for the comfort of the students as well as parents.

Celebrations : Modi Public School celebrates local and national festivals like Republic Day, Independence Day, Holi, Mothers Day, Ganesh Chaturthi, Deepawali, Kojagiri, Guru Poornima etc. with traditional gaiety and fervor. We celebrate the Annual Sports Week, Science and the Art Mela every year. We have made a departure this year by celebrating the Founder's Day on the 23rd of March. Plans are afoot to enlarge its scope in the coming years.
